

On-demand versatility

DP40S

Color Digital Printer

Today's business climate is forcing many of us to change how we print. Your customers, both internal and external, are expecting you to meet their needs – quickly and completely. You operate with fewer resources and a smaller budget, yet the range of services that are requested of you are ever-expanding. So is the need to generate new revenue streams. You either try to leverage the equipment you have or you get support from an outside service. Either way, these options can prove expensive and not always give you the flexibility you need to get the job done.

Expect more, get more

Meet the DP40S Color Printer from Pitney Bowes. It's a new, cost-effective solution for printing on-demand full-color documents and envelopes. It beautifully prints anything from newsletters, letterhead, stationery, posters, promotional pieces, business cards, flyers, and post cards to envelopes – all on the same device. Whether you are creating promotional mailing campaigns to generate sales leads, building customer loyalty or need to promptly communicate offers and news, this system will get the job done quickly and efficiently with nothing less than great quality.

What sets this printer apart is its ability to create personalized documents or mailing pieces with eye-catching envelopes. Brilliant 4-color, coupled with personalization capabilities, will dramatically help increase the openability of your promotional mail.

- One-stop print-to-mail solution to market your business
- Flexible capabilities and range of applications to print on various types of stock
- Great for short print runs without having to “fire up” the big machines
- On-demand print capability for high-impact printing at low cost

Rich images – great price

This high-quality color laser printer gives you so much flexibility and versatility in the types of material you can create. It does all this with High Definition Color Technology up to 600 x 1200 dpi.

Prints with incredibly sharp detail and rich color depth

Immaculate printing is ideal for intricate invitations, flashy posters and ads, as well as promotional mailings and dynamic envelopes

No need for high-quantity minimum orders

Consistent, superior color using low-cost individual ink cartridges

Unlike other printers, the DP40S likes plain envelopes AND window envelopes. The unique technology lets the operator keep the temperature just right for proper sealing and clean, crisp images!

Precise printer control

Your Pitney Bowes Digital Printer comes with iQueue™ printer management software. This gives you complete command over your printing operation:

- Meticulous control over independent CMYK color settings
- Save and recall frequently run jobs for faster set-up
- Access library of predefined settings optimizing image quality
- Easy-to-use set-up and jobs control with drag and drop commands – create, load and print
- Proof, edit and preview jobs before printing
- Accepts creative output from most design software and can print directly from one or multiple Mac or PC workstations

Power of teamwork

In addition to a whole range of material, this versatile system also prints promotional customer letters with corresponding envelopes. When you team up the DP40S with Pitney Bowes' SmartMailer, you've got the power of an A-list team.

- Save postage with postal coding and presorting capabilities
- Update, correct and print accurate address information on envelopes
- Get the best postal discounts available and speed mail through delivery
- Design software for mail pieces and envelopes
